

REMARKS

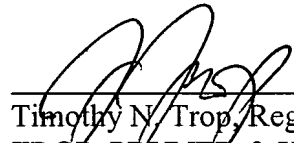

With respect to the Section 112 rejection, the claim has been amended to clarify that the boot device is the programmable, non-volatile memory. Therefore, the objection is believed to be overcome.

Claim 21 has also been amended to include the subject matter of claim 24, which was not otherwise rejected.

Therefore, the application should now be in condition for allowance.

Respectfully submitted,

Date: April 2, 2007
